Profile

Currently in my **final year at Polytech Montpellier**, majoring in **Computer Science and Management**. I will graduate in **February 2026**. Having already completed my final-year internship, I am seeking an **opportunity starting in March 2026** as a **Junior Full Stack Developer** or a **pre-hire internship**.

Technical Skills

Languages: TypeScript, JavaScript, Java, Python, SQL, HTML5/CSS3

Frameworks & Libraries: Angular, React, React Native, Node.js, Express, Spring Boot

Databases: MySQL, MongoDB

Tools: GitLab, GitHub, VS Code, AWS CloudWatch, Jenkins (CI/CD), Docker, Jira, Confluence

Testing & Quality: JUnit, Selenium, SonarQube

Professional Experience

Front-End Web Developer — Final-Year Internship Mar. 2025 — Aug. 2025

Capgemini, Toulouse, France

- Maintained and improved a large-scale public web portal in the energy sector within an Agile team.

Technologies: Angular, TypeScript, Java, HTML5/CSS3, AEM, AWS CloudWatch, GitLab.

Full Stack Web Developer — Personal Project 2024 — Present

PPG Accompagnement, France

- Designed and maintained the website front.ppgaccompagnement.fr.

Technologies: React, Express.js, Node.js, MySQL, GitHub.

Data Analysis Intern — Agricultural Analytics 2024

ITB Stikom Bali, Indonesia

- Analyzed and visualized soil datasets using Python to support sustainable agricultural practices.

Technologies: Python, Pandas, Matplotlib.

Selected Projects

Shopyverse — E-commerce CMS Platform Oct. 2025 — Present

Team Project (6 members)

- Designed a complete e-commerce CMS platform — front-end, back-end, CI/CD, orchestration — with team management and project tracking via Trello.

Technologies: Docker, Node.js, NestJS, Kubernetes, Trello.

Online Ticketing System — Microservices Architecture 2025 — Present

Team Project (3 members)

- Developed a modular and secure mobile ticketing application.

Technologies: React Native, Java, Spring Boot, Kafka, Keycloak.

Web Platform & Mobile App — Montpellier Board Game Festival 2024 — 2025

Personal Project

- Built both the website and mobile app for the festival, from design to deployment.

Technologies: JavaScript, TypeScript, Swift.

Education

Master's Degree in Computer Science & Management 2022 — 2026

Polytech Montpellier — Graduate School of Engineering

Equivalent to a Master of Engineering (M.Eng.)

Preparatory Classes for Engineering Schools (CPGE) 2020 — 2022

Saint-Louis de Gonzague, Perpignan, France

Scientific Baccalaureate with Honors 2019

Lycée François Arago, Perpignan, France

Soft Skills

- **Autonomy** — Able to manage complete projects from front-end to back-end.
- **Rigor & discipline** — Focused on clean, maintainable and well-documented code.
- **Teamwork** — Experienced with Git-based collaboration in Agile environments.
- **Adaptability** — Quick and proactive in learning new technologies.

Languages: French (native), English (upper-intermediate), Spanish (intermediate)
