Profile

Graduated with a Master of Engineering (M.Eng.) in **Computer Science and Management** from **Polytech Montpellier**, I am seeking a **Full-Stack Software Engineer** position starting in **September 2026**.

Technical Skills

Programming Languages: TypeScript, JavaScript, Java, Python, SQL, HTML5/CSS3

Frameworks & Libraries: Angular, React, React Native, Node.js, Express, Spring Boot

Databases: MySQL, MongoDB

Tools: GitLab, GitHub, VS Code, AWS CloudWatch, Jenkins (CI/CD), Docker, Jira, Confluence

Testing & Code Quality: JUnit, Selenium, SonarQube

Professional Experience

Front-End Software Engineer Intern March 2025 – August 2025

Capgemini – Toulouse, France

- Contributed to the development and maintenance of a large-scale public web portal for a major energy company within an Agile Scrum team.

Technologies: Angular, TypeScript, Java, HTML5/CSS3, Adobe Experience Manager (AEM), AWS CloudWatch, GitLab.

Full-Stack Web Developer – Personal Project 2024 – Present

PPG Accompagnement

- Designed, developed and maintain the company's web platform from back-end APIs to front-end interfaces.

Technologies: React, Express.js, Node.js, MySQL, GitHub.

Agricultural Data Analysis Intern 2024

ITB Stikom Bali – Indonesia

- Developed Python scripts to analyze and visualize soil data in order to support agricultural decision-making.

Technologies: Python, Pandas, Matplotlib.

Selected Projects

Shopyverse – CMS E-commerce Platform October 2025 – Present

Team Project (6 developers)

- Developing a complete e-commerce platform including front-end, back-end, CI/CD pipeline and container orchestration while coordinating project management through Trello.

Technologies: Docker, Node.js, NestJS, Kubernetes, Trello.

Online Ticketing System – Microservices Architecture 2025 – Present

Team Project (3 developers)

- Developed a secure and scalable mobile ticketing application based on a microservices architecture.

Technologies: React Native, Java, Spring Boot, Kafka, Keycloak.

Website & Mobile Application – Montpellier Board Game Festival 2024 – 2025

Personal Project

- Designed and developed both the website and mobile application, from concept to production deployment.

Technologies: JavaScript, TypeScript, Swift.

Education

Master of Engineering (M.Eng.) – Computer Science and Management 2022 – 2026

Polytech Montpellier

Preparatory Classes for Engineering Schools (CPGE) 2020 – 2022

Saint-Louis de Gonzague – Perpignan

French Scientific Baccalaureate (Honours) 2019

Lycée François Arago – Perpignan

Soft Skills

- **Autonomous** – Able to manage projects from design to deployment.
- **Analytical mindset** – Strong attention to software quality and maintainability.
- **Team player** – Comfortable working in Agile teams using Git workflows.
- **Adaptable** – Fast learner with a strong interest in new technologies.

Languages: French (Native), English (B2 – Upper Intermediate), Spanish (Intermediate)
